Notice to the Market

It is with great pleasure that we share with you Cosan's Sustainability Report which details the economic, environmental and social performance of the Company and its subsidiaries for the 2011/2012 and 2012/2013 cycles. The report focuses on the most relevant topics for each of our businesses and presents initiatives and practices already implemented in the Company.

The report has been vetted by and elaborated according to the criteria laid out by Global Reporting Initiatives (GRI), a nongovernmental organization that sets the global standard for sustainability reports. It was then verified by PwC–Pricewaterhousecoopers, an independent audit firm.

This report will act as a reference point as Cosan advances its sustainability practice, always focusing on business continuity and value creation for all our stakeholders.

The report 2012/2013 also is available in the Cosan's Sustainability website:
